

YOUR FACULTY IN THE HEART OF ALSACE

If you are opting to study in Alsace and are looking for a programme in law, economics, management or applied languages and if your aim is to obtain a B.A., a Master's degree or a Ph.D., you would be welcome at our medium-sized Faculty at Mulhouse, which is firmly rooted in the world of professionalism.

Located in the heart of a dynamic region in the east of France, our Faculty integrates extremely well with changing social and economic developments. It offers exceptional working conditions and a strong interface with a variety of economic forces, as well as working closely with outside contributors, partners and research laboratories. These are among the many assets that our Faculty is continually cultivating and developing.

This is why our training programmes are multidisciplinary: law, economics, social sciences and foreign languages applied to management and technical translation. These programmes are offered as initial training in addition to sandwich courses and vocational training. Markets are targeted in line with the skills required so our students can acquire a range of competence which makes them atypical and immediately operational when they are recruited.

Our Faculty is young and this can readily be seen and felt through its dynamism and quick response to the labour market. The professional integration of our students is a challenge that we take up every day. Studying in Mulhouse will give you an outstanding opportunity to succeed; my team and I will support you all the way.

G.Cohen, Dean
